

Dear Family,

Today my class started Chapter 8, **Measurement**. I will learn how to compare measurements of length, weight, capacity, area, and time. Here are my vocabulary words, an activity to do, and a list of books we can read together.

Love, \_\_\_\_\_

## Key Vocabulary

### length

### weight

heavy

light

### Activity

Help your child find things that differ in length. For example, compare pencils, crayons, silverware, string, and any other items. Find objects with different weight. Have your child choose two objects and decide which one is lighter.

## Books to Read

***I Can Measure Length, It Has No Strength!***  
by Tracy Kompelein

***Measurement***  
by Sara Pistoia

***Length***  
by Henry Arthur Pluckrose
