

Trip Talk

Chapter 10

- Have your child make a group of 5 cars out of blue and black cars. Keep track for your child of the cars they have found. Have your child count the two groups together to see if they have a total of five.
- When stopped at a traffic light with 2 lanes of traffic, have your child count the cars in both lanes and tell how many there are in all.
- Make up addition and subtraction stories about objects both inside and outside of the car.
